

# Sign Up For A Blog Today!

The web is where everything happens these days and we make it easy for you to set up your own internet shop. Until recently setting up a website was a real pain. You had to worry about graphic and web design, complicated codes, hosting services and site upgrades. If you weren't a techie, you had to fork over some serious dough.

That was the old way. Cleansector.com is the future. Our blogs are an easy and effective way to take your business online. No expensive web designers or complicated code to worry about. We've collected a set of stunning site templates for you to choose from and pre-configured the settings so you can be online in minutes. Of course, everything's at your fingertips so if you want to dip into the HTML/CSS waters and customize your own code then dive away!

## Bottom line:

If you're looking for a simple online solution that comes with a network of industry professionals, welcome to the club. We've got just what you need.

## Make Money

---

Having a website will do wonders for your business. These days the internet serves as a Yellow Pages, an Index and a referral service. In 2009 if you don't have an online presence, you're not really in the game. A Clean Sector personalized website puts you right in the starting lineup. Having a site means potential clients can check out your work, your prices and do some preliminary searching before contacting you. That means less cold calling and marketing for you and more time to make money. And your site is also a great place to offer exclusive sales and deals.

## Customize it

---

We know you want to stand out. After all, this is business and you want to make an impression with your services and your website. That's why we've given you so many options. Our sites are built using a powerful, highly customizable Wordpress Content Management System. We have over HOW MANY THEMES? to choose from and each blog comes preloaded with widgets that allow you to customize the look and functionality. And our easy to use visual text editor makes it a snap to add videos, pictures and even audio to your site.
